

Trees at school

This task is about impact of tree planting on an environment.
Plan for tree planting at school

A new school has just been built on a flat area of land. Eight trees that will grow to more than 10 metres have been planted at sites 1 to 8.

The trees are evergreen (they don't lose their leaves).

Hohepa said that it wasn't very sensible to plant the trees in positions 5 and 7.

Explain why he might think this.

Position	Reason
5	
7	

He said that trees planted at positions 1 and 3 are in useful places.

Explain why he might think this.
