

Seasons in different parts of the world

This task is about the Earth's seasons.

Sun Hee moved with her family from the city of Pusan in South Korea to Auckland in New Zealand. She arrived in Auckland in January. Having come from the Northern Hemisphere to the Southern Hemisphere, she noticed how warm it was when she left the air terminal. She asked her father why it was warm in Auckland while colder in Pusan. Her father drew this diagram to help her understand the difference in the seasons.

a) Explain why it was warmer in Auckland.

b) What season was it in South Korea?

Summer

Spring

Winter

Autumn
