

What's happening in the world

This task is about interpreting symbols on a map of the world.

Here is a diagram showing the major natural events that happened on the Earth in one week.

a) This symbol  means a geyser erupted.

In what part of New Zealand is this most likely to have happened?

<input type="radio"/> Auckland	<input type="radio"/> Rotorua	<input type="radio"/> New Plymouth	<input type="radio"/> Hamilton
--------------------------------	-------------------------------	------------------------------------	--------------------------------

b) What event on the Earth would be shown by these symbols?

i) 

ii) 

c) What is special about the temperature  + 45°C, marked on the map?
