

What's happening in the world

This task is about interpreting symbols on a map of the world.

Here is a diagram showing the major natural events that happened on the Earth in one week.

a) This symbol  means a geyser erupted.

In what part of New Zealand is this most likely to have happened?

Auckland

Rotorua

New Plymouth

Hamilton

b) What event on the Earth would be shown by these symbols?

i) 

ii) 

c) What is special about the temperature  + 45°C, marked on the map?
