

River on the farm

This task is about thinking about how we can protect our streams and rivers.

Here is a drawing of a river and the land around it.

- a) At the spot marked X, the river is wearing away the riverbank.
What are **two** things that could be done to stop the riverbank being worn away?

1.

2.

- b) Sometimes this river floods the farmland near by. What could be done to stop the farmland being flooded?
