

Frost

This task is about reading information from a table.

Leilani has plants in her garden that could be damaged by frost. She used the following weather forecasts to decide whether to protect her garden from overnight frost damage.

	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Temperature at 10pm	6 °C	2 °C	4 °C	8 °C	3 °C	5 °C	3 °C
Cloud cover	clear	clear	cloudy	clear	cloudy	cloudy	clear

- a) On which two nights would Leilani be most likely to protect her garden from frost?
Think about the temperature and the cloud cover.

*Sunday/ Monday/ Tuesday/ Wednesday/ Thursday/ Friday/ Saturday and
Sunday/ Monday/ Tuesday/ Wednesday/ Thursday/ Friday/ Saturday*

- b) Why is protection needed most on these nights?
