Melting and dissolving

This task is about melting and dissolving.

Jill and Toby wanted to see who could boil water the quickest. The diagram above shows how they each set up their equipment.

a) i) Describe what you see happening when something melts.		
ii) Explain why	you think this happens.	
1 3 13 - 11		
b) i) Describe	what you see happening when something dissolves.	
b) i) Describe	what you see happening when something dissolves.	
b) i) Describe	what you see happening when something dissolves.	
b) i) Describe	what you see happening when something dissolves.	
b) i) Describe	what you see happening when something dissolves.	
b) i) Describe	what you see happening when something dissolves.	
b) i) Describe	what you see happening when something dissolves.	
b) i) Describe	what you see happening when something dissolves.	
	what you see happening when something dissolves. you think this happens.
