

Food in the sun

This task is about what would happen if something was left in the sun.

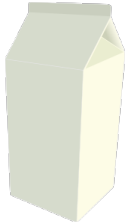

Think about what would happen to the food in following questions if it was left in the sun for one day. For each question write as many changes as you can.

- a) What would happen if the ice block was left in the sun for a day?
Write about as many changes as you can.

Ice block

- b) What would happen if the milk was left in the sun for a day?
