

What will I use?

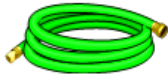

This task is about the physical properties of materials.

MATERIALS		
Plastic	Metal	Wood
	Paper	
Rope		Glass

Finish the table by:

- Picking the best material from the list to make each object.
- Writing down why this material would be best to use.

The first one has been done for you.

Object	What is the best material to make this object?	Why is this the best material to use?
a) Stirring spoon 	Wood	Wood takes a long time to heat up, so you won't burn your hand.
b) Window 		
c) Door key 		
d) Hammer head 		
e) Garden hose 		
f) Rubbish bags
