

Bleach

This task is about the properties of bleach.

This information was found on a bottle of bleach:

- Use for all tough cleaning and germ killing.
- Caution: keep out of the reach of children.
- If accidentally swallowed do NOT induce vomiting, give copious quantities of milk or water and call a doctor or the National Poisons Centre immediately.

a) Name one type of germ that bleach will kill.

b) Why should a bottle of bleach be kept away from children?

c) If someone were to accidentally swallow bleach, what is the effect of giving them large quantities of water or milk?
