

The party

This task is about liquids, gases, and solids.

Read the information below and complete the table that follows.

SAUSAGE SIZZLE: Peter turned on the gas barbeque and lit the **fuel**. The **sausage** began to sizzle as the **fat** ran out onto the hot plate. He took the cooked sausage and covered it with lots of **tomato sauce**.

ICE BLOCKS: Sarah poured **fruit juice** in moulds and put the moulds in the freezer overnight. The next day, as she ate the **ice block**, the **juice** kept running down her hand.

JELLY: Chris boiled the **water** in the jug and watched the **steam** rising. She poured the water onto the **jelly crystals** in a bowl and stirred the mixture. The next day she ate some of the set **jelly**.

There are 12 substances written in bold in the box above. Write the substance in the table below to show if they are solid, liquid, or gas.

	Sausage Sizzle	Ice Blocks	Jelly
Solid			
Liquid			
Gas
