

# Threats to birds

This task is about identifying how different events threaten (or have threatened) our native birds.

Tick the boxes to show which events affect (or have affected) each of these native New Zealand birds.

	NATIVE BIRDS					
EVENTS	<b>Kereru (WOOD PIGEON)</b> A slow moving large native bird that eats berries, flowers and leaves	<b>BLACK ROBIN</b> A small endangered bird that nests in tree hollows in the bush	<b>KIWI</b> An endangered flightless bird living in bush and forests	<b>MOA</b> A large extinct flightless bird	<b>Toroa (ALBATROSS)</b> A large endangered sea bird	<b>Tuturiwhata (DOTTEREL)</b> An endangered sea shore bird endemic to NZ (found only in NZ)
HUMAN FISHING ACTIVITIES						
HUNTED BY HUMANS FOR FOOD
