

A garden food web

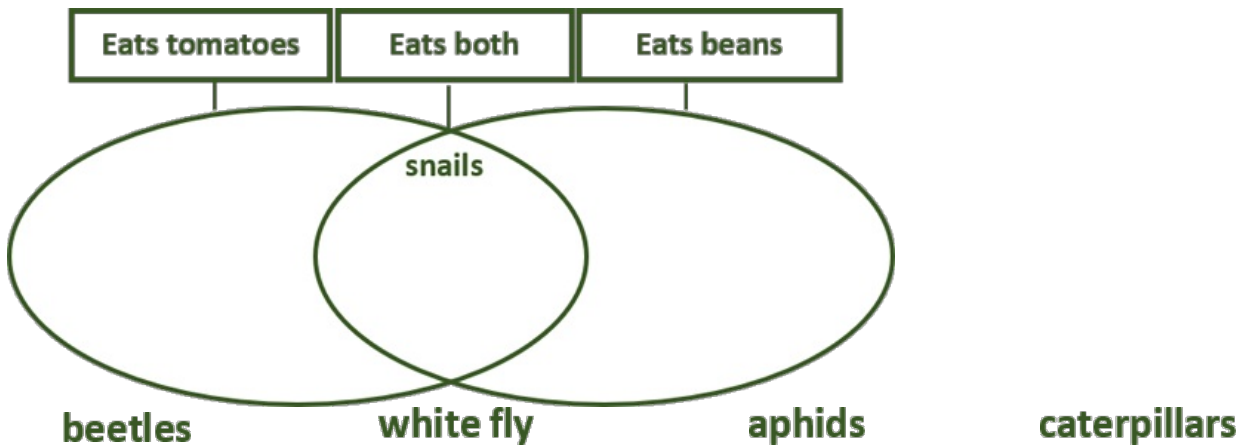

This task is about using diagrams to show information about a garden food web.

a) On the food web what do the arrows represent?

b) Use the food web to complete the Venn diagram below, to show which animals eat beans, which eat tomatoes, and which eat both.

The Venn diagram has been started for you, showing that snails eat both tomatoes and beans.

c) The gardener uses a spray that kills aphids and white fly.

Choose **3** different animals in the food web and explain how this will affect them.

1.

2.

3.

d) Which animal will probably disappear when all the bean plants are pulled out? Why?
