

Dinosaur fossils

This task is about evidence.

Fossils are the clues that give us information about extinct dinosaurs.

Fossils can be any of the following: skin, footprints, bones, droppings, or eggs.

Explain **two** pieces of information that each fossil shown below could tell us about a dinosaur.

The first one has been done for you.

Type of fossil	What this fossil can tell us
<p>Skin</p> 	<ul style="list-style-type: none">• How thick the skin was.• The structure of the skin.
<p>Footprints</p> 	<ul style="list-style-type: none">• <input type="text"/>• <input type="text"/>
<p>Bones</p> 	<ul style="list-style-type: none">• <input type="text"/>• <input type="text"/>
<p>Droppings</p> 	<ul style="list-style-type: none">• <input type="text"/>• <input type="text"/>
<p>Eggs</p> 	<ul style="list-style-type: none">• <input type="text"/>• <input type="text"/>
