Dinosaur fossils

This task is about evidence.

Fossils are the clues that give us information about extinct dinosaurs. Fossils can be any of the following: skin, footprints, bones, droppings, or eggs.

Explain **two** pieces of information that each fossil shown below could tell us about a dinosaur.

The first one has been done for you.

Type of fossil	What this fossil can tell us
	How thick the skin was.
Skin	The structure of the skin.
Footprints	
* **	
Bones	•
Droppings	•
Eggs &	•
