

Pond weed investigation

This task is about figuring out things about an investigation.

Rikki set up an investigation to show that plants make a gas. The following diagrams show the investigation he set up, but the steps are mixed up.

a) Put the steps of the investigation into their correct order:

| | | | | | | |
|----------|----------|----------|----------|----------|----------|----------|
| C | A | B | D | E | F | G |
|----------|----------|----------|----------|----------|----------|----------|

b) Write an aim for this investigation.

c) Name the gas that is produced by plants.

d) Name the process in plants that produces this gas.

e) Write a conclusion for this investigation.
