

Animal groups

This task is about using the features of animals to work out which group they belong to.

How to do this task:

- . You will be given a card with an animal on it.
- . Write down the name of the animal that is on your card. _____
- . Look at the animal carefully.

a) Write down all the **features** of **your** animal.

- . Now move around the class, until you find all the other students who have the same features.
- . Look at all the features and animals in you group.

b) What is the name of the larger group all your animals belong to?

c) Write down all the **features** of the animal group your animal belongs to.
