Identifying fish and shellfish

This task is about using a classification key to identify animals.
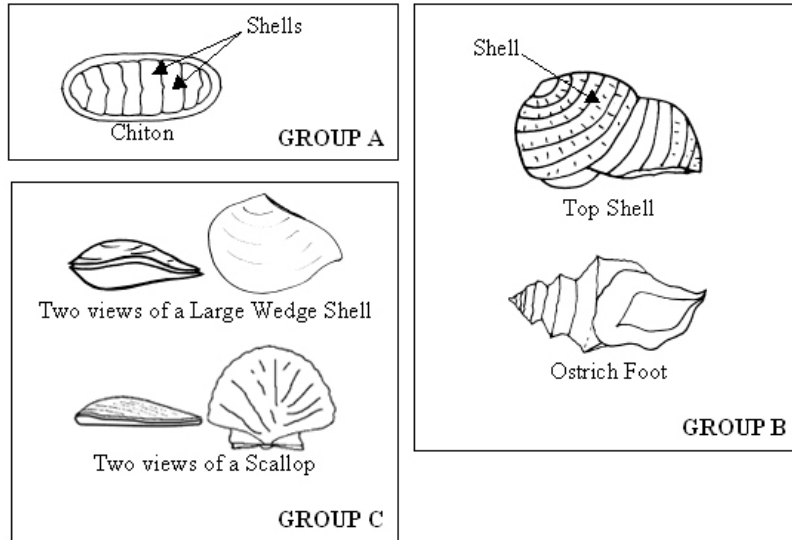

a)

NEW ZEALAND FRESHWATER FISH
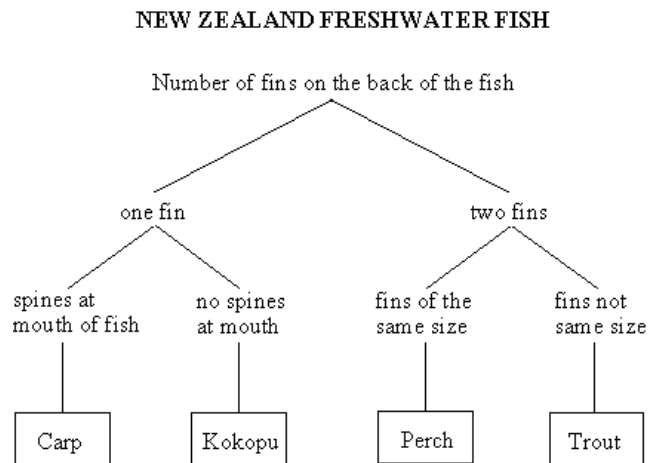

Use the chart above to identify this fish.

The fish shown is a ...
(**A**)   trout.
(**B**)   kokopu.
(**C**)   perch.
(**D**)   carp.

b)

GROUP A — Chiton (Shells)

GROUP B — Top Shell (Shell), Ostrich Foot

GROUP C — Two views of a Large Wedge Shell, Two views of a Scallop

[NOT DRAWN TO SCALE]

These molluscs belong to three different groups: A, B, and C.

i) What feature do all these animals have in common? _____

ii) Complete the spaces i) to vii) so that someone would be able to identify these five animals.
   [The question, New Zealand Freshwater Fish, might help you answer this.]
