

Packing food for the hāngī

This task is about working out how much food is needed for a hāngī.

Ariana needs to make sure there is enough food for a hāngī.

Each person will get:

- 4 pieces of kumara
- 2 pieces of pork
- 3 pieces of pumpkin.

Write the total number of pieces of food that Ariana needs to feed 78 people.

- i. kumara (4 pieces each) pieces
- ii. pork (2 pieces each) pieces
- iii. pumpkin (3 pieces each) pieces.
